Sway Parish Council would like to confirm that at no point did the Council consider the Sway Football Club was using the bar as any form of drinking den, with the negative connotations that suggests.

We have had no issues with members and supporters of the Football Club using the facility, as they have done for the past four years.

The Parish Council welcomes the help that the Football Club gives to the Council in supporting the facility and looks forward to maintaining and developing this mutually beneficial relationship in the future.
